FOR METAL INDUSTRIES
AND TRADING L.L.C

www.beta-metal.com

Why BETA ?

BETA was founded in 2016 and was since built on an uncompromising reputation for expertise, competitiveness and customer service throughout the state of Egypt.

BETA is committed to improving quality & reducing costs by manufacturing products in the most efficient & precise way. This means keeping up-to-date with both the latest technology and your project requirements.

Our Quality Assurance program complies with high standard safety procedures & to ensure our products meet our own strict requirements for quality, integrity and accuracy, the manufacturing process is thoroughly and continuously checked.

Our strong reputation was earned by our professionally equipped and highly capable staff, supported by their extensive experience, market awareness not to mention their impeccable ability to anticipate client's needs.

BETA's highly skilled workforce can offer a full range of technical solutions for all your steel and metal design requirements.

BETA specializes in the construction field & has proven experience within various industries. We are practiced in precise stainless steel construction and also capable of batch production, architectural features and other specialist works.

Our comprehensive service provides everything from a simple repair to a "one-stop" metal works solution for large-scale projects, including design, engineering, fabrication, assembly and erecting. Whatever your project entails, our track record shows that our expert workforce and advanced equipment means we can meet the most demanding metal fabrication project specifications and schedules on time and within budget.

Our customer service is second to none. Here at **BETA** we're proud to say that our reliability, competitiveness & high standard of work usually leads to repeat business and/or recommendations. At every stage of your relationship with us, our experienced & friendly staff will be on hand to visit, advise & help with estimations or any problems that may arise.

Regardless of the size or cost of your project, we aim to provide you with a personal, as well as a professional service. This is why each project undertaken by us is overseen by a contract manager from start to finish, ensuring continuity & a single point of contact.
